

Sr .NET Developer (New York / Full time)

About UpClear

UpClear (www.upclear.com) is an Enterprise Software-as-a-Service (SaaS) company focused on the Consumer Goods industry, and especially Sales Optimization. UpClear's flagship software BluePlanner covers Sales Planning and Trade Promotion Management. UpClear is growing rapidly with clients in Europe, North America and Asia. It operates out of NYC (Madison Sq Park) and London.

Job Description

UpClear is looking for a Senior .NET Developer, who will act as a tech lead on multiple projects in 2011 and beyond. Candidate will analyze requirements and design, develop, enhance, test and implement evolutions to our software including migrating to a full .net MVC web platform.

The position involves:

- Software design, development and support
- Participate in the migration to ASP.NET and continue the development of our Analytics and Modeling platforms
- Collaborate with the UK and US teams on specifications and developments
- Participate in the testing of new software features; help manage software releases and configuration

Technical Skills

- 5+ years of software development experience
- C# .NET v3.5 and 4.0
- ASP .NET MVC
- AJAX, jQuery
- Experience with Winforms
- TSQL, SQL server 2008

Other Skills

- Strong organizational skills, rigor and attention to detail
- Ability to work in fast-paced environment
- Strong and clear communication skills, including written communication
- Work effectively within a development team, using collaboration tools, source control, documentation and bug tracking

If you wish to apply, please send a cover letter and resume to recruitment@upclear.com
