

SQL Server Application DBA (Full time)

Positions available in New York & London

About UpClear

UpClear (www.upclear.com) is an enterprise-software company focused on the Consumer Packaged Goods industry, and especially Sales Optimization. UpClear's flagship software BluePlanner covers Sales Planning and Trade Promotion Management. UpClear has clients in more than 10 countries and operates out of London (UK) and New York City (USA). This year, UpClear will achieve more than 50% growth in revenue.

Job Description

We're seeking a smart and motivated individual with 3 to 5 years of experience who wants full-time employment for a fast growing company. Ideal candidate will have strong T-SQL skills to support and enhance our SaaS solution being utilized by clients in 10 countries through our globally hosted data centers.

Job Responsibilities:

- Getting down and dirty with SQL Server stored procedures.
- Coding, testing, and troubleshooting features and enhancements in the current database environment.
- Monitoring and fine tuning databases for optimal performance.
- Enhancing and maintaining existing Business Analytics using SSAS and SSRS.
- Managing the migration of data in our cloud servers.
- Establishing SQL Server Replication throughout cloud servers for scalability and availability.

Job Qualifications

- Are smart and like working with smart people?
- Do you want to work for a small company that makes heroes of its customers?
- Are you able to manage a workload based on shifting priorities?
- Do you excel in a fast paced and dynamic environment?
- Can you work both independently as well as in groups?
- Are you an expert at writing and debugging complex SQL statements?
- Can you determine the most efficient way to incorporate application requests and existing database environment?

If you wish to apply, please send a cover letter and resume to recruitment@upclear.com
